

WEEK-3

DATE:04-08-25

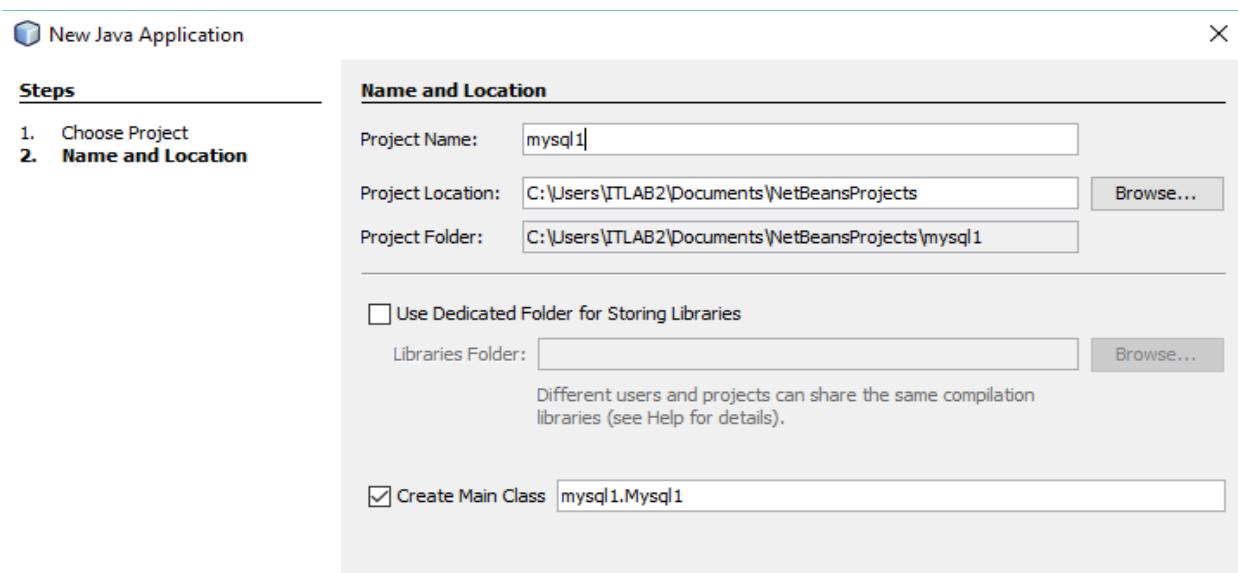

AIM: JDBC-MYSQL CONNECTION

Procedure:

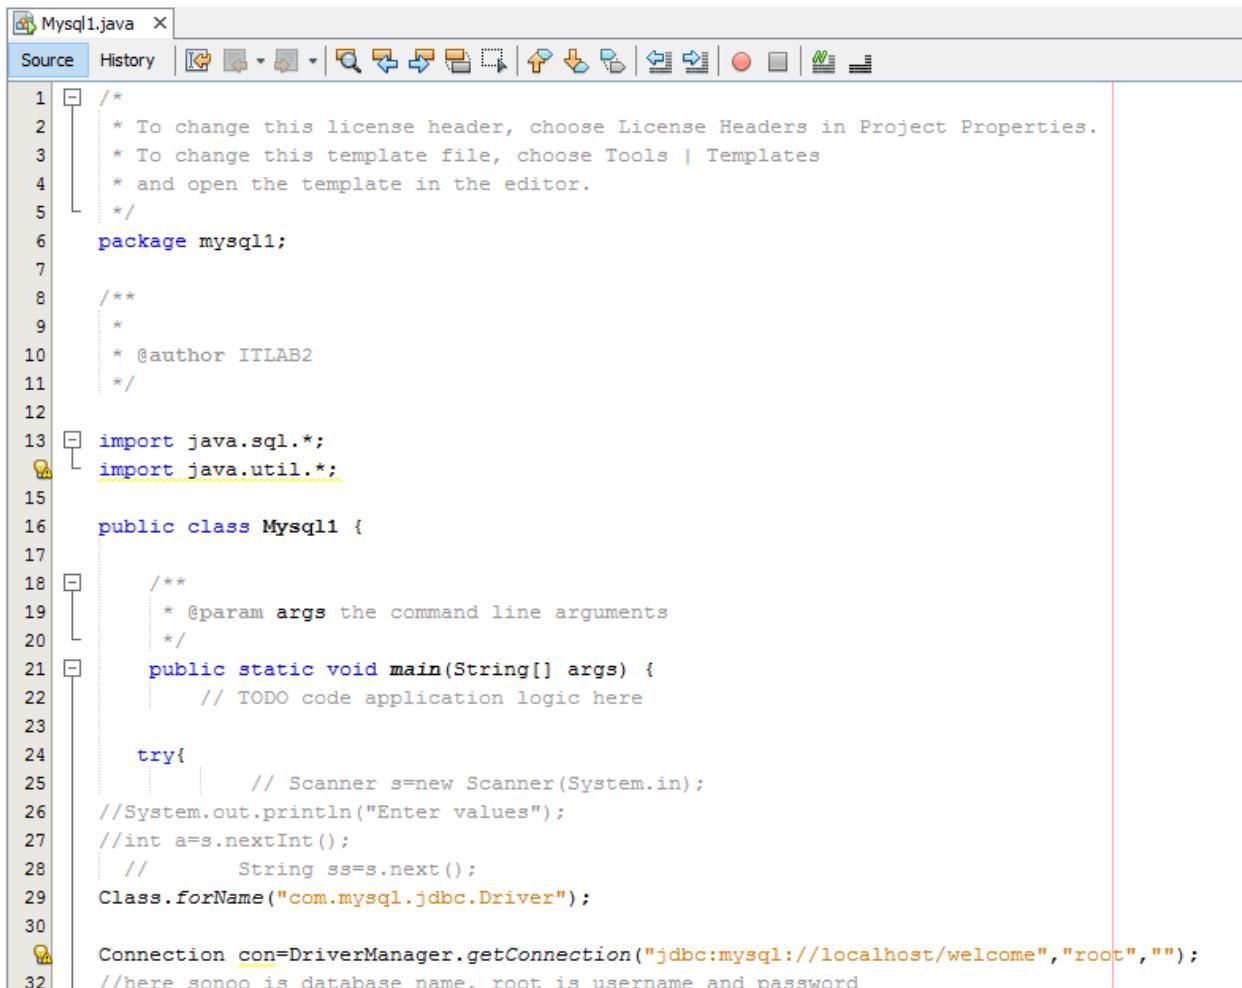

- 1.Click the category as java and in projects java application and click on next.

- 2.Enter file name and click finish now your file is setup is completed.

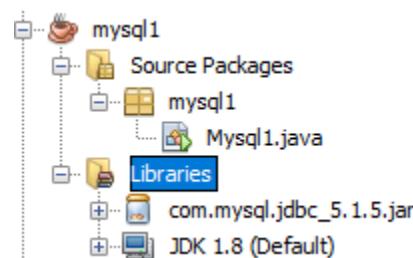

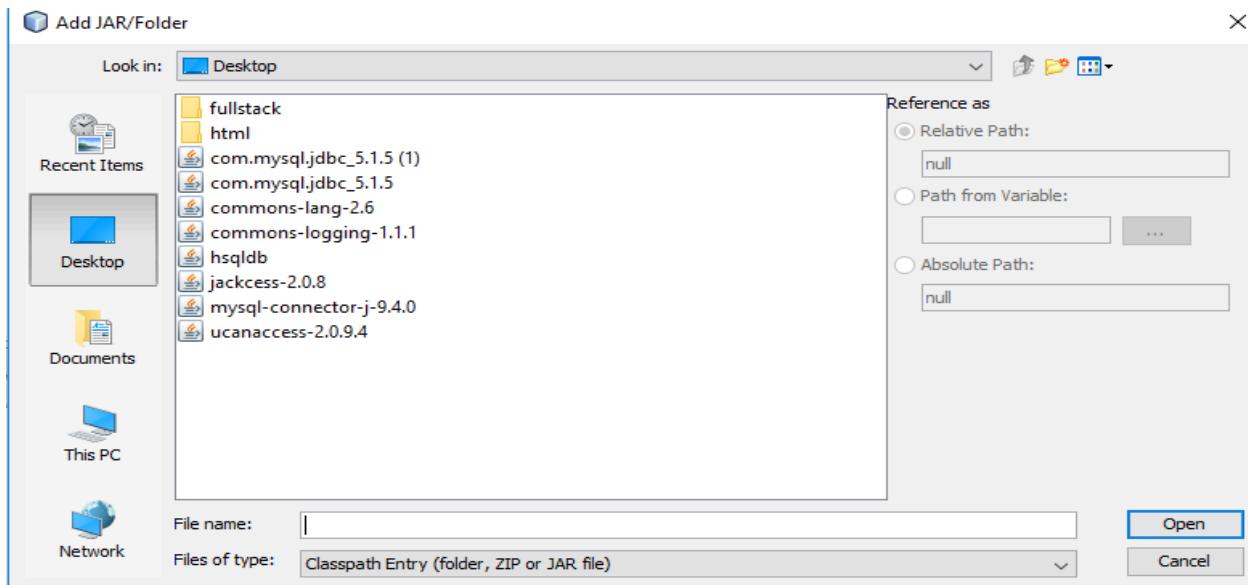

3.Code of the Mysql1 of the project and running the code after adding the data.

```
1  /*
2   * To change this license header, choose License Headers in Project Properties.
3   * To change this template file, choose Tools | Templates
4   * and open the template in the editor.
5   */
6  package mysql1;
7
8  /**
9   *
10  * @author ITLAB2
11  */
12
13 import java.sql.*;
14 import java.util.*;
15
16 public class Mysql1 {
17
18     /**
19      * @param args the command line arguments
20      */
21     public static void main(String[] args) {
22         // TODO code application logic here
23
24         try{
25             // Scanner s=new Scanner(System.in);
26             //System.out.println("Enter values");
27             //int a=s.nextInt();
28             // String ss=s.next();
29             Class.forName("com.mysql.jdbc.Driver");
30
31             Connection con=DriverManager.getConnection("jdbc:mysql://localhost/welcome","root","");
32             //here sonoo is database name, root is username and password
```

4.In your project libraries add the JAR/Folder and choose all drivers that are required and add them

5. Open mysql server and create a database welcome. After creation of database, change the database into welcome database. Insert the table with data of some students and run the server.

```

mysql> use welcome;
Database changed
mysql> create table student(rollnumber varchar(30),name varchar(50));
Query OK, 0 rows affected (0.01 sec)

mysql> insert into student values("238w1a1281","varsha");
Query OK, 1 row affected (0.00 sec)

mysql> insert into student values("238w1a1282","mounika");
Query OK, 1 row affected (0.00 sec)

mysql> select * from student;
+-----+-----+
| rollnumber | name   |
+-----+-----+
| 238w1a1281 | varsha |
| 238w1a1282 | mounika|
+-----+-----+
2 rows in set (0.00 sec)

```

6. After running of the mysql server and return to the project mysql1 ,run the program and the output is displayed which are added in the table.
